Aztek Logistics has been established since April 2003 and from small beginnings has grown into a major player in the warehousing and distribution industry. Having built the business on quality and the ability to deal with single pallet deliveries through to full load distribution throughout the UK and Europe, Aztek Logistics are able to deal with any requirement you may have.

Based at our secure 70,000 sq. ft. facility in Letchworth Garden City, we aim to provide added value logistics, storage and fulfilment services to compliment our wide range of transportation solutions & specialist equipment from Sprinters vans, through 7.5 tonne, 18 tonne & 44 tonne vehicles.

As shareholder members of the Pallet Track network, and having utilised the benefits of the Networks market leading I.T. and unrivalled service levels, we are able to provide additional services and flexibility to our customers with a comprehensive logistics solution for larger and smaller consignments.

the pallet-track network

the pallet-track network

The Pallet-Track service portfolio is extensive and highly competitive, offering our customers a choice of service options. With greater demands being placed on independent road haulage operators to provide quality services at home and abroad for their customers, Pallet-Track can provide a flexible link to cater for every delivery requirement.

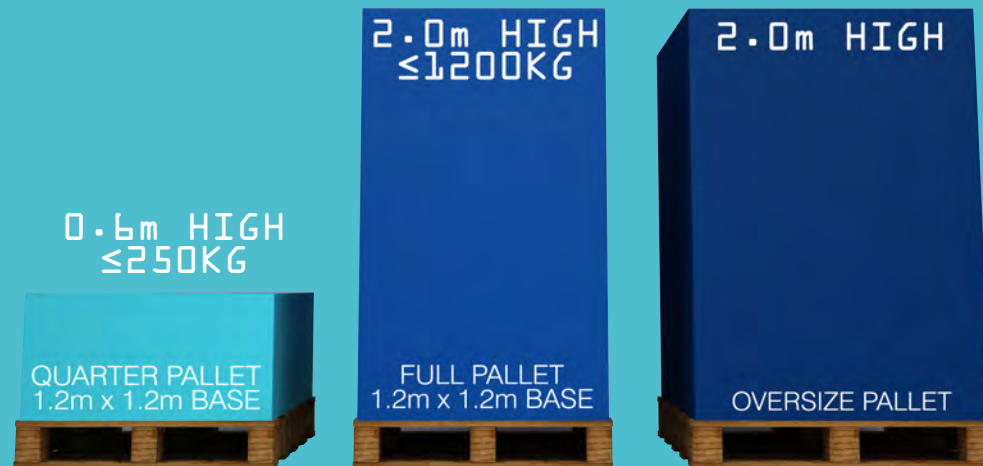

From our modern and impressive Titan Distribution Centre, Pallet-Track members are able to offer an unparalleled level of service. Through investment in people, information technology, and state-of-the-art materials handling, our network enjoys a fully structured service that is second to none in our industry.

Our operation is equipped to cater to our rapidly increasing volumes of palletised freight, all of which is electronically scanned and tracked.

online & tracking

Part of our network success is the continual investment in cutting-edge technology, and both our online tracking system and proof-of-delivery solution keep us one step ahead of our competitors.

We can provide total transparency throughout the system, with full track and trace from collection through to delivery. The whole process provides our customers with complete confidence, knowing their shipment is being tracked and monitored every step of the way.

Our data capture system records delivery details and allows electronic signatures to be taken at the point of delivery.

The online portal gives users the ability to enter consignments directly into our depot system and access real-time delivery information.

web-based customer portal

- ✓ Allows local entry of consignment data
- ✓ View consignment information
- ✓ View Track & Trace
- ✓ View online proof-of-delivery
- ✓ View scanned customer paperwork
